Professional Objective

Goal-driven professional seeking to leverage extensive experience and innovative strategies to achieve corporate objectives.

Work Skills

Languages and Framework	Angular2~(19), Angular Material, D3 JS, NGRX, ReactJS (19) Storybook, Native Script Mobile, AngularJS, TypeScript, Java Script, SCSS, HTML5, Java Spring Boot, ROR (Ruby on Rails), NextJS, VideoJS, Angular Schematics
Technologies	Single Page Applications, OOPs Development, Webpack, ng cli, npm, jQuery, GITLAB, AWS EC2, S3 Bucket , Google Slide Api, Zoom SDK
Database Transaction APIs	Mobile SQLite, MySQL, Oracle SQL Developer, PLSQL, AWS RDBMS
Operating System	Mac OS, Windows, Linux (Ubuntu, Redhat)
IDEs	VS Code, WebStorm, XCode, Android Studio
Server Technologies	Apache, FileZilla (Configuring), WinSCP, Tomcat, JBOSS, Jenkins, AWS, Azure,
UI STYLING FRAMEWORKS	Material Design, Bootstrap, CSS3, Foundation, Kendo UI, Mobile Layouts. D3 JS Data Driven Document JavaScript
OTHER TECHNOLOGY	Rest API, consumption, JSON, XML data structures, Version Control software (GIT/SVN), JIRA. Pivotal tracker, Asana, Confluence, GIT Copilot

Work Experience

Sr Specialist Software Engineering (Dec 2020 to till date) | LTIMINDTREE Pune MH, INDIA

Project 1 Software Testing Environment Booking Portal (Jan 2025 to till date)

Technical Project Manager and Solution Architect

Project Brief:

The project is about developing a web-based portal for managing test environment bookings across various value streams and products. It includes features for booking, rescheduling, and canceling test environments, tracking environment utilization, and providing insights through dashboards.

Role and Responsibilities:

- Design complete Solution Architecture
- Responsible for Production Delivery
- Stakeholder Management.
- Team Management
- Training and Onboarding of new resources
- Technical guidance to the team in using efficient technologies, frameworks, methodologies.
- Task and Resource management
- JIRA Board Management
- Deployment with OpenShift
- Creating GITHUB workflow for Code Review and Build and Eslint

Tech Stack:

React, Java Sprint Boot, OpenShift, GitHub workflow, PLSQL

Project 2 ABSA BSA Africa Countries (9) | Branch Banking App (Apr 2024 to till date)

Angular Architect and Technical Lead

Project Brief:

The project is about migration from Traditional app legacy Java app to new Angular SPA web-based for dealing day to day customers in branch which includes Core Banking, Customer on boarding for Loan, Current, Saving and Card Account, KYC and notification and Business Banking.

Role and Responsibilities:

- Aligning Release for 9 African countries
- Responsible for Production Delivery Pen testing, UAT and NFT
- Complete Client and Stockholder Management.
- Team Management
- Training and Onboarding of new resources.
- Impact Assessment for New Requirements
- Designing and development reusable code and components Guidance to Team.
- Escalating all blockers to client.
- Technical guidance to the team in using efficient technologies, frameworks, methodologies.
- Front End Leadership task and resource management.
- Resume shortlisting and Interviewing Front End Role.
- GIT branch managing merging and code review.
- Performance optimization.

Tech Stack:

Angular 19 with Java Sprint Boot, OpenShift, GitHub workflow, PLSQL, JHIPSTER, Registry, Microservices, BIO Metric SDK Integration

Project 3 ABSA South Africa Bank | Kilimanjaro | Retail Customer Facing Banking App (May 2022 to Mar 2024)

Technical Lead

Project Brief:

Retail Banking Web App (Upgrading all features from Lagacy App developed in Java). Features Authorization, Notification, Will, International payments (SWIFT, Western Union), M CCP, Saving and Investment products etc

Role and Responsibilities:

- Responsible for Production Delivery from Wireframe to CIT, SIT, Pen testing, UAT
- Client Management.
- Team Management
- Front End Leadership task and resource management.
- Resume shortlisting and Interviewing Front End Role.
- Training and Onboarding of new resources into Client System.
- Solutioning the Business requirement from Product Owner and Business Analyst aligned with Banking Standard (Client Development Standard) and converting into Epic to User story.
- Designing and development reusable code and components Guidance to Team.
- Escalating all applicable blockers to client.
- Ensure Team member following strict code review guideline and Code and UI Design Pattern.
- Worked with QA Lead to review test plans and test cases.
- Technical guidance to the team in using efficient technologies, frameworks, methodologies.
- Managing GIT branches, merging, and conducting code reviews.
- Performance optimization.
- Running Scrum and following up.
- Generated Schematics as per Project guideline to generate scaffolding of new features.

Tech Stack:

Angular 16, TypeScript, Angular Material, StoryBookJS, CSS3

Project 4 CNB Bank USA (RBC) | Wealth Management app (Jan 2021 to Apr 2022)

Sr Developer Angular

Project Brief:

Wealth Management Portfolio build on prediction various scenario with ML based Engine. WMP help High profile People/ Organization in investment with giving different Scenarios.

Role and Responsibilities:

- Designing and developing reusable code and components.
- Ensure client code standard
- Technical guidance to the junior developer in using efficient technologies, frameworks, methodologies.
- Interviewing Front End candidates
- Creating common components and publishing also adding in Story book with full documentation.
- Building complex Graph and charts using D3 JS.
- Performance optimization.

Tech Stack:

Angular 12, TypeScript, Angular Material, StoryBookJS, CSS3 ES6, HTML5, SCSS, D3 Charts, .net, Git, RxJS, Webpack, Publishing Angular Private Library, Nuget Package, Math ML (MathJAX), Kendo Grid

Sr. Software Engineer (Oct 2019 to Dec 2020) | Engineer Ai PVT LTD (Builder.Ai) Gurgaon HR INDIA

Project 1 Scheduler App

Sr ReactJS Developer

Project Brief:

Builder Scheduler is Scheduling Engine for Team (Sales) availability for Customer using Google Calendar and Zoom Meeting data.

. Role and Responsibilities:

- Front End Architect
- ReactJs Development
- Architecting and automating the build process for production, using task runners or scripts
- ROR Ruby on rails API development.
- Gitlab CI Integration, Zoom Integration, Google Calendar,
- Design and develop reusable code and components.
- Works with QA to review test plans and test cases.
- Technical guidance to the team in using efficient technologies, frameworks, methodologies.
- Interviewing Front End Role
- GIT branch managing merging and code review

Tech Stack:

ReactJS, CSS3 ES6, HTML5, SCSS, Git, Webpack

Project 2 Builder 360 – App for Project Managers

Sr Angular Developer

Project Brief:

PM Dashboard Builder 360 is Portal for Managers for Managing projects and Developers.

Role and Responsibilities:

- Angular Architect for Design Solution in Front End Apps
- Architecting and automating the build process for production, using task runners or scripts
- ROR Ruby on rails API development.
- Gitlab CI Integration, Google Slides API integration.
- Develop large scale web/database applications with HTML5, Bootstrap and Angular Integration.
- Design and develop reusable code and components.
- Working with QA Lead.
- Technical guidance to the team in using efficient technologies, frameworks, methodologies.
- Front End Leadership task and resource management
- Resume shortlisting and Interviewing Front End Role
- Deploying apps on AWS Cloud
- GIT branch managing merging and code review
- PWA integration and Performance optimization

Tech Stack:

Angular 8, TypeScript, Angular Material, CSS3 ES6, HTML5, SCSS, Google Slide, Zoom Api, VideoJS, Websocket, High Charts

Sr Software Engineer (Sep-2016 to Sep-2019) HTC Global Services (India) Pvt. Ltd Chennai / INDIA (Client NSF Gurugram)

Project 1 NSF International- iAudit App

Sr Angular Native Script Mobile App Developer

Project Brief:

iAudit - Mobile App for Auditor for performing Scheduled and Surprised Audits in food and safety.

Role and Responsibilities:

- **Angular and Native Script Mobile App Development**

- **SQLite Database, Push Notification, and Native** File System, Server API Interaction
- Creating customs, general use **modules** and **components** for extending the **elements** and **modules** of core **AngularJS**
- Solution guidance to the team in using efficient design patterns.
- Front End Task management
- Taking Front End Role Interviews
- Developed Algorithm for Security Mechanism using RSA and Android Key Store Concept

Tech Stack:

Angular, NativeScript TypeScript, HTML5, Mobile Responsive SCSS, GIT, SQlite Database, NGRx, Angular Cli , WEBPACK, PARSEL, Android Kotlin, Android keyStore

Project 2 NSF Online

Angular Developer

Project Brief:

The project is about developing a web-based portal for managing large customers for performing audits and corrective actions for providing certification for client.

Role and Responsibilities:

- **AngularJS App** Development
- Documenting the code inline using JS Doc or other conventions.
- Creating customs, general use **modules** and **components** for extending the **elements** and **modules** of core **AngularJS**
- Front End Task management
- Developing API in Java Spring Boot MVC
- Large Table data integration with Kendo Grid and pagination
- Angular and AngularJS Hybrid Code Migrations and Development

Tech Stack:

AngularJS, Angular, JavaScript, TypeScript, HTML5, BOOTSTRAP3, CSS, Kendo UI, Prime Faces UI, Semantic UI, Grid, NG Google Charts, RxJS, GRUNT, GULP, WEBPACK

AngularJS Developer. (Aug-2015 to Aug-2016 |Xchanging Technology Services India Pvt. Ltd. (DXC new name) Gurgaon HR INDIA

Project 1 Education app for School for Uttar Pradesh Government

Sr Angular Native Script Mobile App Developer

Project Brief:

The project was aimed at creating an educational application for schools under the Uttar Pradesh Government. This involved developing a platform to facilitate digital learning, provide educational resources, and support communication between teachers, students, and parents. The app aimed to enhance educational experience and improve accessibility to learning materials.

Role and Responsibilities:

- Develop and maintain user interfaces using AngularJS
- Implement responsive web design with HTML5, CSS, and BOOTSTRAP3
- Collaborate with back-end developers to integrate APIs and services
- Ensure cross-browser compatibility and optimize performance
- Develop UI components using Thirdparty UI

Tech Stack:

AngularJS, JavaScript, HTML5, BOOTSTRAP, CSS, Bower

Project 2 NCTE Certification App

Junior Angular Developer

Project Brief:

National Council for Teacher Education (NCTE) is an Indian government body set up under the National Council for Teacher Education Act, 1993 . NCTE gives recognition to Institutions for programs.

Role and Responsibilities:

- AngularJS application development with complete integration
- Creating custom directive
- UI Screen development with HTML5 and CSS
- Performs functional and non-functional tests to ensure overall product quality

Tech Stack:

AngularJS, JavaScript, HTML5, CSS

Project 3 CIMB, Singapore Bank, Retail app

Junior Angular Developer

Project Brief:

CIMB – Singapore Bank Project - CIMB Group is a universal bank headquartered in Kuala Lumpur, operating in high growth economies in ASEAN.

Role and Responsibilities:

- AngularJS application development with complete integration with validation, service, directive and controller.
- UI Screen development with HTML5 and CSS
- Performs functional and non-functional tests to ensure overall product quality.

Tech Stack:

AngularJS, JavaScript, HTML5, CSS

UI Developer (Jan-2014 to Jul-2015) HCL SERVICE LTD. NOIDA SEC- 11 U.P. INDIA

Project 1 Ecourts Internal App for Daily Case proceedings and hearing in District Courts

UI Developer

Project Brief:

An Indian Judiciary Govt. Project. The e-Courts project was conceptualized based on the “National Policy and Action Plan for Implementation of information and communication technology (ICT) in the Indian Judiciary – 2005”

Role and Responsibilities:

- Responsive/Adaptive design frameworks and with best practices CSS, creating media rules.
- Transform design mockups into Responsive web app and WordPress theme
- Preparing Weekly and Monthly Reports.
- Core PHP Web App Development. Deploying application over Server (Ubuntu).

- Support client on different Production Issue.
- Backup Database syncing with another server

Tech Stack:

AngularJS, JavaScript, HTML5, CSS, PHP, Linux Ubuntu, MySQL

Open-Source Contributor and Publisher

- Published Native Script Plugin and ng-tactful-lib angular Library with Video Tagging Module over npm

Other Responsibilities

- Spearhead simple and robust front-end implementation and ensure that the final product satisfies user needs and goals.
- Documenting the code inline using JS Doc or other conventions.
- Follow MVC architecture and design patterns applicable to development assignments.
- Responsible for developing high quality web applications
- Delivered highly scalable, consumer-facing web applications.
- Writing non-blocking code, and resorting to advanced techniques such as multi-threading, when needed and code review.
- Coordinating with co-developers and other related departments.
- Follows coding standards & build unit tests.
- Document code and maintain API user documentation
- Work on multiple projects with multiple deadlines
- Thorough understanding of the responsibilities of the platform, database, API, caching layer, proxies, and other web services used in the system

Education & Qualifications

2008 – 2012	University – MDU, Rohtak, Haryana Degree – Bachelor's in Technology - Computer Science With 68% Aggregate.
2007-2008	XII (PCM) From CBSE (DAV Public School Faridabad) with 66%
2005 – 2006	X From CBSE (JAWAHAR NAVODYA VIDYALYA FARIDABAD) with 88%

Achievements & Extracurricular Activities

- A' Certificate in 5 HARYANA BATTALION N.C.C. GURGAON.
- Merit Certificate in Computer Science in DAV Public School Faridabad.
- Participated in Intel Science Talent Discovery Fair Workshop jointly organized by INTEL & NVS in Chandigarh

Other Skills

- Pro-active, creatively driven, team spirit
- Good analytical and problem-solving abilities,
- Strong organizational, prioritization and communication skills.
- Work with innovative products where my ideas get invited.

- Take pride in getting things done with "zero defect".

Personal Profile

Father's Name	Sh. Jagan Singh
Date of Birth	10 th October, 1990
Languages known	Hindi & English
Nationality	Indian
Current Address	D508 TINSEL TOWN, HIJEWADI PH 2 PUNE MAHARASTHRA IN (PIN – 411057)

Declaration

I hereby state that the information stated above is correct to best my knowledge and belief.
